Emissions & Description of the Balance Room

Balance standard: This certificate is to be understood as a self-declaration of the company. Depending on the self-selected system limit, the balance represents the sum of all direct and indirect greenhouse gas emissions of a company/site/process/product, expressed in CO2 equivalents (CO2e). The balance sheet is drawn up in accordance with the requirements for the quantitative determination and reporting of greenhouse gas emissions in accordance with the self-selected regulation or standard.
